

BALANCE VASES

FURNITURE / LIGHTING / ACCESSORIES

PRODUCT FACT SHEET

HALLGEIR HOMSTVEDT ON THE DESIGN "I wanted to play with the concept of visual balance when designing the Balance Vase Set, and offer a new perspective on a vase. My idea was to create an object that naturally engages the observer's curiosity and creativity. Most vases look empty without flowers, but the Balance Vases are almost like sculptural silhouettes that you can personalize and arrange the way you desire, with or without flowers."

PROCESS Vases are cased in colored clay and shaped in plaster molds. The tray is casted in steel and lastly powder coated.
