

MINI STACKED SHELF SYSTEM

FURNITURE / LIGHTING / ACCESSORIES

PRODUCT FACT SHEET

JULIEN DE SMEDT ARCHITECTS ON THE DESIGN "How to be specific and generic altogether? Shelving systems have a tendency to achieve one concern but never both. We decided to dimension shelving units based on the generic measurements of things to store and display while allowing for them to be combined according to specific needs and desires. The result can be at times a random stack of boxes or a coordinated grid of efficient storage... or both!"

PROCESS

Colored cubes: Every side is cut out of MDF, then assembled, glued together and painted with three layers of PU lacquer. Ash cubes: Every side is cut out of MDF with ash veneer, then assembled and glued together.

DESIGNED BY / YEAR OF DESIGN

Julien De Smedt / 2012

TYPE

Wall-mountable shelf system, all modules with backboards. Medium ash also available with grey, rose, dusty green or yellow backboard.

DESCRIPTION

Mini Stacked is a small and versatile addition to the Stacked System. The cubes hang neatly on the wall individually or together, creating graphic and functional storage.

ENVIRONMENT

Indoor / Free standing or wall mounted

MATERIAL

Mini Stacked cubes: MDF ash veneer
Mini Stacked clips: Powder coated steel

COLOR

Mini Stacked: white, ash, light grey, dark grey
Ash medium w. coloured backboard: grey, yellow, rose, dusty green
Mini Stacked Clips: white, rose, yellow, grey, dusty green, light grey, dark grey

CLEANING INSTRUCTIONS

Remove dust from shelves with a soft cloth. When necessary clean with moist cloth. For wood veneer finishes, dry immediately with a soft cloth following the wood grains. The wood should not be exposed to excessive heat, direct sunlight or humidity.

ABOUT THE DESIGNER

Copenhagen based Julien De Smedt is the co-founder of PLOT and an internationally acclaimed architect. He is recognized for his ability to always take a fresh look at things. His works challenge conventions and many have been awarded.
