

FIBER SIDE CHAIR - SLED BASE

FURNITURE / LIGHTING / ACCESSORIES

PRODUCT FACT SHEET

ISKOS BERLIN ON THE DESIGN "The FIBER Side Chair is a natural extension to the expanding FIBER Chair family – designed with a clear sculptural language that refuses to compromise on comfort. The FIBER Side Chair has a clean and light visual expression keeping the chair simple and human, without any sign of eccentricity. We wanted to create a friendly, embracing chair with soft, refined curves - inviting you to take a seat. FIBER Side Chair has an environmentally friendly wood fiber composite, giving the chair a distinctive visual and tactile texture while also keeping it recyclable."

PROCESS

The wood fiber and plastic blend is injected into the mold, forming the chair's shell. The steel sled base is CNC-bent and powder coated.

DESCRIPTION

The Fiber Side chair is the latest member of the Fiber chair family. A family of chairs, with a bio-composite material with up to 25% wood fibers. Designed to balance maximum comfort with minimum space. The chair has a visual light expression and allows great freedom of movement for the user.

MATERIAL

Shell consists of a wood and plastic composition with up to 25% wood fibers. The Fiber Chair family is partly made from a natural material - variations in color can occur.

CLEANING INSTRUCTIONS

Clean with a moist cloth. If necessary use a little dish soap on the cloth.

TESTS AND CERTIFICATIONS

Danish Technological Institute - EN 15373 L2. Tested to withstand level 2: Extreme use. Tested to withstand use in areas where the furniture is occasionally or repeatedly subject to extremely high loads. i.e. night-clubs, railway stations, transport terminals.

The Möbelfakta certification is based on three parts: quality, environment, and social responsibility. This means that every stage of manufacturing is green, meeting established international technical standards, while also guaranteeing that all stakeholders in the production chain comply with the United Nations Global Compact.
